Government Polytechnic Porbandar │ CGPA : 9.73

WORK EXPERIENCE

SimpleMinds Technologies, Ahmedabad   **June 2024**
Flutter Developer Intern

- Learned Flutter and developed the frontend of a live project using Flutter.
- Focused on creating intuitive user interfaces and ensuring a seamless user experience.

SimpleMinds Technologies, Ahmedabad   **July 2023 - August 2023**
Fullstack Developer Intern

- Worked on a live project using Vue.js and Laravel, contributing to both frontend and backend development.
- Gained hands-on experience in building scalable and efficient web applications.

Treesha Infotech, Ahmedabad   **September 2022**
Moodle Developer Intern

- Developed an educational platform for online learning using MOODLE LMS.
- Designed interactive modules and implemented online testing features to streamline the assessment process.

PROJECTS

Meme Sharing App

- Developed a meme-sharing application using Kotlin, integrating Reddit API to fetch and display memes.
- Utilized a Kaggle dataset to categorize and display memes from different subreddits.

Smart Email Generator

- Built an AI-powered email response generator using Spring Boot and Google's Gemini model.
- Developed a Gmail extension to integrate the model for seamless email replies.
